## PRODUCT DATA SHEET

### HAND DISINFECTION

"INEOS STERILE SANITISER"

Alcohol-based hand disinfectant

### PRODUCT DESCRIPTION

Hospital grade alcohol-based hand disinfection gel.

### SCOPE OF APPLICATION

Suitable for both personal and commercial use and in all facilities and premises to prevent the spread of germs.

### APPLICATION USAGE

Use for general hygiene to disinfect hands e.g. Use after coughing, sneezing, contact with infected material, or potentially contaminated surfaces.

### APPLICATION NOTES

General hand hygiene application: Put a small amount in your dry hands and rub it from the fingertips over the palms and backs of the hands. Allow to dry completely without wiping or rinsing. Important: The use of towels or tissues may lead to recontamination.

PRODUCT CHARACTERISTICS	USE
<b>Effective</b>	Kills 99.9% of the bacteria.
<b>Formulation</b>	The gel is easy to rub on your hands. Drops, splashes and thus unnecessary losses are avoided, as is the case with liquid alcohol-based disinfectants.
<b>User-friendly</b>	For frequent use between hand washes.
<b>Moisturising effect</b>	For the skin through the use of an emollient.
<b>Hypoallergenic</b>	The ingredients used suggest a low skin allergy potential. Allergy sufferers are advised to check the list of ingredients before use.
<b>Additives</b>	No fragrance or coloring agents added. Use without water. Dries quickly on the hands. No rinsing with water required.
