Company Address

GB: Coca-Cola European Partners Great Britain Limited,
Uxbridge,
UB8 1EZ.

ROI: Coca-Cola HBC Ireland Limited,
Dublin,
D11 HY68.

Product Marketing

GLACÉAU Smartwater is made from British spring water which is vapour-distilled before electrolytes are added. It has a distinctive, crisp, clean taste and is produced and bottled in Morpeth, Northumberland. All our Smartwater bottles are now made from 100% rPET.

Made from vapour-distilled British spring water and added electrolytes, GLACÉAU Smartwater Sparkling has a distinctive, crisp, clean taste but with the addition of tiny bubbles to create a lightly carbonated water.

Brand Marketing

Coca-Cola and the Environment

Coca-Cola is committed to making a positive difference - to the health of the planet, consumers and the communities it serves. The company is working hard to reduce its impact on the environment in everything it does - growing more while using less in areas such as energy and water use, waste reduction and recycling - and by encouraging people to think more about the positive impact they can have on their local environment.

Other Information

100% recycled plastic*

100% recycled plastic logo*

*bottle made from 100% recycled plastic. Label and cap are recyclable but are not made from recycled plastic.

Bottled - Plastic - Widely Recycled

GLACÉAU smartwater is a trademark of Energy Brands Inc.

Further Description

We don't just bottle our British spring water. Oh no. We vapour distil every drop for purity before adding electrolytes and a light carbonation to create our distinctive, clean, crisp taste.
