### Product Marketing

A premium tonic water carefully crafted to enhance the aroma of gin in mixed drinks. The oakwood extract gives an entirely new taste sensation thanks to its distinctive bitter first notes. Characteristically unique and versatile, emphasising elegant notes thanks to its fine and persistent bubbles, without masking the flavour of the cocktail. Hints of oak bark and quinine open a wonderfully complex flavour profile that expertly balances bitter and sweet nuances. Signature Cocktail suggested: Premium Gin + licorice + ice and wood essence, garnish with a lemon peel. Other botanicals to enhance the drinking experience: Black pepper + cucumber + celery.
