The food information supplied by Thomas Ridley Foodservice has been provided by the respective product manufacturer. Whilst we use reasonable endeavours to check this information and ensure its accuracy, we do not give any warranty (whether express or implied), guarantee or representation that it is true, accurate or complete in any respect.

As product information, ingredients, nutritional guides and dietary or allergy advice may change from time to time, we recommend that you always carefully read the product label prior to using or consuming any such products. You should not solely rely upon the information we provide and make your own assessment as to the suitability or otherwise of any given product.

AQUAPAX
Pure & Still
SPRING WATER
100% RECYCLABLE AND SUSTAINABLE AND
PAPER CARTON
FOR THE ENVIRONMENT

A World First

In 2006 Aquapax launched as the world's original carton water brand, pioneering a new sustainable water category. Aquapax cartons are majority plant-based, made using renewable and 100% recyclable materials including our screw caps which are made from natural sugar cane.

Aquapax deliveries are made through a carbon-balanced supply chain and every Aquapax sold contributes to the accredited Aquapax Communitree Project.

We value every customer interaction, and pride ourselves on supplying the most ecologically sensitive, pure portable water solutions, with a flexible, responsive and exceptional level of customer service at every point in our supply chain.

Our Natural Water Source

- Aquapax Spring Water is a naturally pure, naturally low mineral content water with practically no nitrates.
- Aquapax Spring Water is packaged at source from a recognised natural mineral water spring, located deep below protected ground in Germany.
- Aquapax Spring Water is produced in a dedicated family-run mineral water factory which uses Certified 100% green electricity.
- Our factory partner supports local and ecological farming, protecting the source for five generations and counting.
- Aquapax Spring Water factory is Organic Certified.
- Aquapax cartons are filled with due care and attention at our source, where our filling factory is regularly quality audited by the International Certification body IFS.

Typical Analysis

Bicarbonate	169
Calcium	64
Chloride	20.9
Magnesium	3.4
Nitrate	<0.5
Potassium	1.8
Sodium	3.6
Sulphate	14.3
pH	7.69
TDS	297

Aquapax 500ml Spring Water Detail

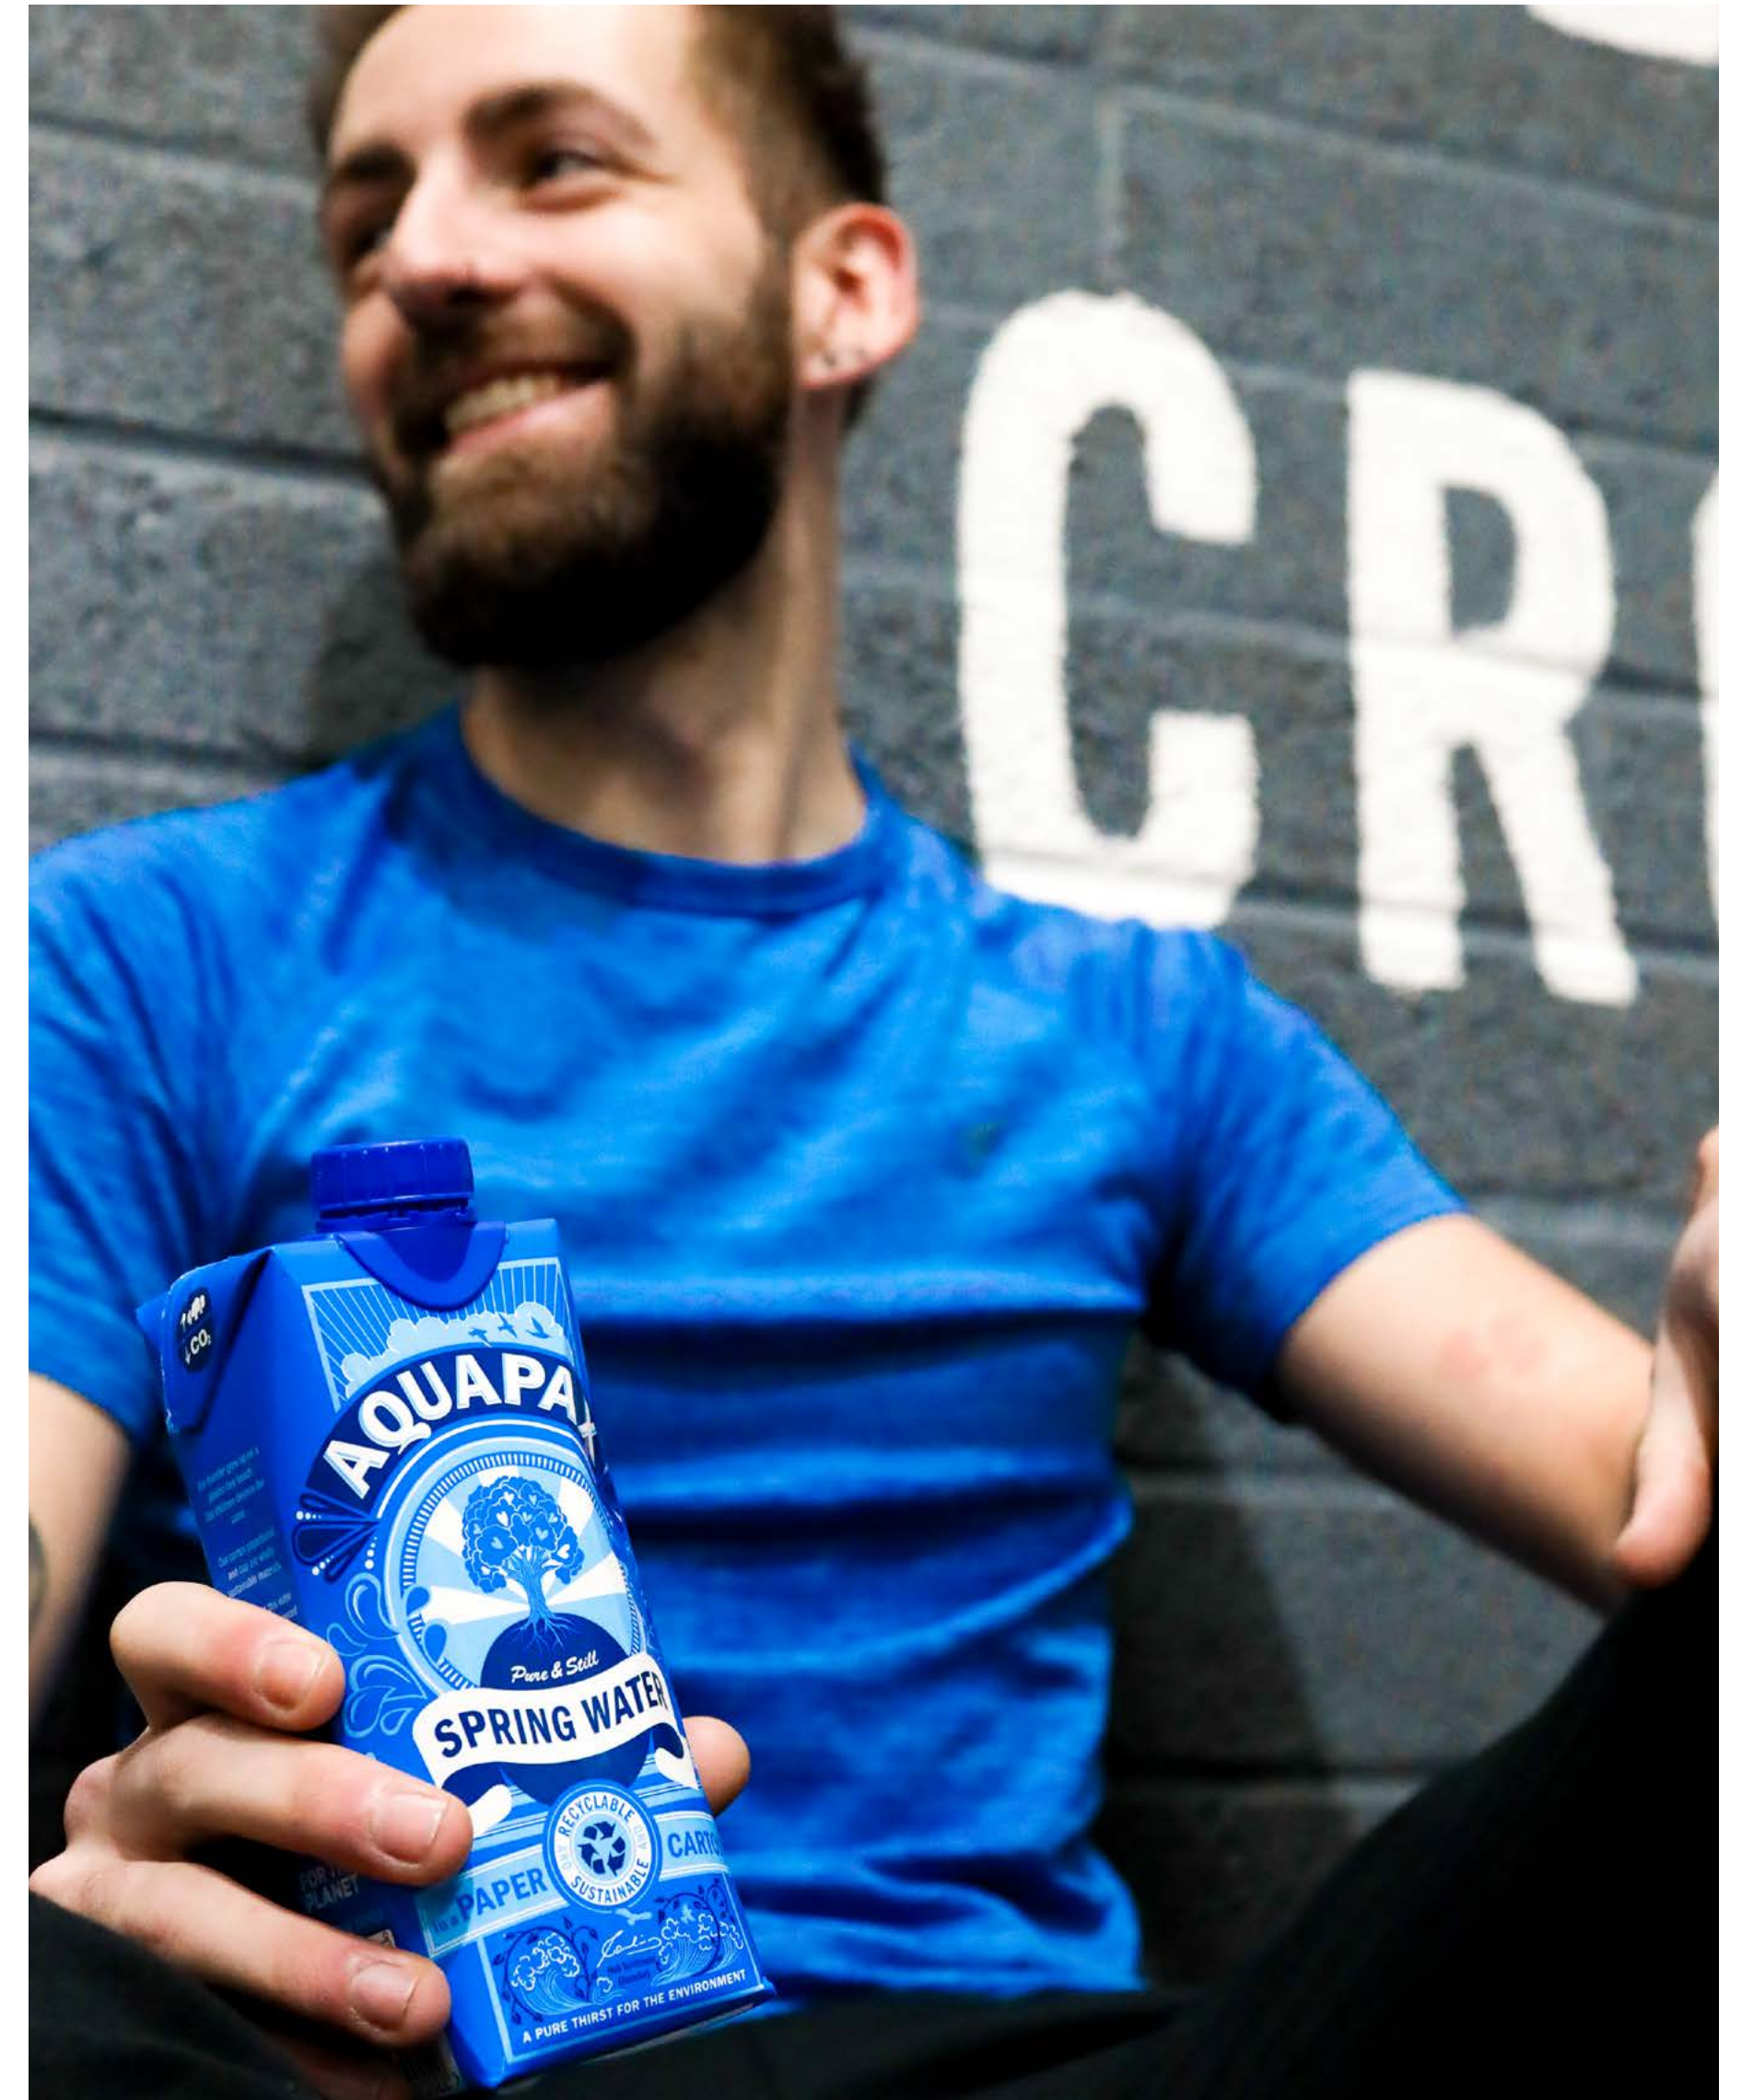

Carton Volume (ml)	500
Carton Height (mm)	166
Carton Width (mm)	71
Carton Depth (mm)	65
Carton Net Weight (g)	525
Case Contents	12 x 500ml cartons
Case Height (mm)	172
Case Width (mm)	214
Case Depth (mm)	262
Full case gross weight (kg)	6.3
Case Price	£5.94
Pallet Price (105 cases)	£623.70 ex VAT
Delivery on Euro Pallet	Included

Aquapax 500ml cartons:

- 87.9% plant based renewable materials
(paperboard and bio-polymer cap/polymers)
- 7.7% non-bio based PE and ‘food grade’ waterproof lining
(non-leaching)
- 4.4% oxygen impermeable aluminium barrier film
(6 microns thin)

Our cartons are wholly recyclable and the wood used to make our majority paper cartons is sourced from ‘FSC’ certified, sustainable forests. Cartons are the lowest carbon footprint package option available.

Aquapax CommuniTree Project

Helping communities around the world with reforestation.

Aquapax is the world's first carbon-balanced water brand with an active reforestation programme, committing 1% of our annual turnover back to environmental restoration through The Aquapax CommuniTree Project.

The programme combines farmer driven project design and technology to regenerate forests, alongside employment opportunities which last a lifetime and beyond. In the last 12 months alone, funds raised by Aquapax have helped plant over 5000 trees and secure over 50 jobs.

Our mission is to grow trees and to help tackle poverty and climate change, and every penny of the Aquapax CommuniTree funding is applied to that goal.
