PREPARATION

Remove packaging and make sure the product is completely thawed before heating. For best results, heat in a High Speed Oven. (Please contact Danora for settings if required). Alternatively, please use ONE of the following options: 1. Microwave for 20 sec followed by pressgrill for 2 min at 280°C. 2. Pressgrill for 2½ - 4 min at 280°C. 3. Heat in a preheated conventional oven at 190°C for 5-7 minutes, or until product is hot throughout. *The heating times stated are only guidelines due to variations in the type equipment used. Heating times quoted are from a fully thawed state, unless specifically stated otherwise.
