HANDLING & STORAGE INFORMATION

Directions For Use

BOIL IN THE BAG Place pouches in a saucepan of cold water; bring to a rolling boil for 20 minutes, reduce to a simmer for a further hour or until 82oC is reached, gently agitating the bag half way through. **STEAM** Place the required number of pouches flat in a perforated steamer tray. Place in steamer for approximately 1 1/2 hours, or until 82oC is reached. **PAN COOK** Empty pouch contents into a thick-based saucepan, cook thoroughly on a medium heat for approximately 25 minutes, stirring frequently to avoid burning, sticking or sauce spitting. Ensure that a minimum temperature of 82oC is reached throughout the product. Do not allow the sauce to boil, as this will impair the quality and may cause the sauce to spit **COOKING FROM DEFROST** Cooking when defrosted: • Sauces must not be steamed or boiled in the bag. This is because the pouch material may have become brittle during freezing. • To cook on the hob follow the heating instructions contained within the customer guide. • Ensure that the contents are cooked to a minimum of 82oC. • Do not re-heat products that have previously been cooked.
