Preparation & Usage from Frozen

Product Code: **GD4055010**

Microwave:

N/A

Oven:

N/A

Grill:

N/A

Frying:

N/A

Other Cooking or Serving Instructions:

Defrost duck breast thoroughly in the fridge before cooking. Once defrosted, keep refrigerated and use within 24 hours. Do not refreeze after defrosting. For best results, pan and oven cook from chilled: Preheat oven to 200°C/Fan 180°C/Gas Mark 6. Remove all packaging and place duck breast skin side down in a cold frying pan without oil. Place pan over a moderate heat and cook for 5 minutes. Turn breast over and cook for a further 1 minute, skin side up. Transfer duck breast, skin side up, to a roasting tin. Place on middle oven shelf and cook for 15 minutes. Remove from oven and rest for 10 minutes in a warm place before serving. Check duck breast is piping hot throughout before serving. Poultry is cooked if the juices run clear when the flesh is pierced with a thin skewer. If the juices run pink, continue cooking until they are clear. Do not reheat once cooled. All cooking appliances vary. This is a guide only.
