

GORDON'S GIN 150CL

Information

Gordon's Gin was founded by Alexander Gordon. In 1769 Alexander founded his world famous distillery in Southwark London. He wanted to create an unsweetened gloriously flavoured gin to fit on any table. While remaining true to Juniper the key ingredient to most gins, Gordon believed that success was in the perfect combination of pure distilled grain spirit and rich botanicals. Gordon's is triple distilled to guarantee the purity of the gin and the exact blend of our botanicals has remained closely guarded secret.

Juniper berries are carefully selected from the pick of each year's crop. They are shaken rather than picked from the tree and then stored for up to two years to intensify the oils and mellow the flavours.

As well as Juniper berries, the recipe includes coriander seeds, angelica root, liquorice, orris root, orange and lemon peel.

Product Details

Size	1.5ltr Magnum
Strength (ABV)	37.5%
Brand	Gordon's
Presentation	Glass Bottle
Country	England

Nutrition Facts

Gordon's - London Dry Gin
